DE7

Project: From reality to models with Data Engineering focus (Supervisor from DPT)

Courses:
- Advanced topics in Databases (DAT7) or should it be Data Intensive Systems (SW7) ???
- Programming paradigms (DAT7)

One optional out of two:
- Advanced topics in Distributed Systems (DAT7)
- Web engineering (SW7)

Other courses to consider:
- Advanced topics in HCI (DAT7)
- Agent Technology (SW7)

DE8

(slight problem: project from DAT, courses mostly from SW)

Project: From models to reality with Data Engineering focus (Supervisor from DPT)

Courses:
- Mobile Software Technology (SW8)
- Advanced Programming (SW8)

One optional out of two:
- Advanced topics in Machine Intelligence (DAT8)
- Advanced Algorithms (SW6)   - *in MI, they propose this as a mandatory course for their MI8 semester!*

Other possible courses to consider:
- Advanced topics in Semantics and Verification (DAT8)
- Advanced topics in System Development (DAT8)
- Test and Verification (SW8)
- Software Innovation (DAT8)

DE9

Project: Pre-master project with Data Engineering focus

Courses:
- Specialization course in Database technology (DAT9)
- Entrepreneurship (DAT9)

DE10

Master project
